USER GUIDE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instruction manual may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.

• Increase the separation distance between the equipment and the receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
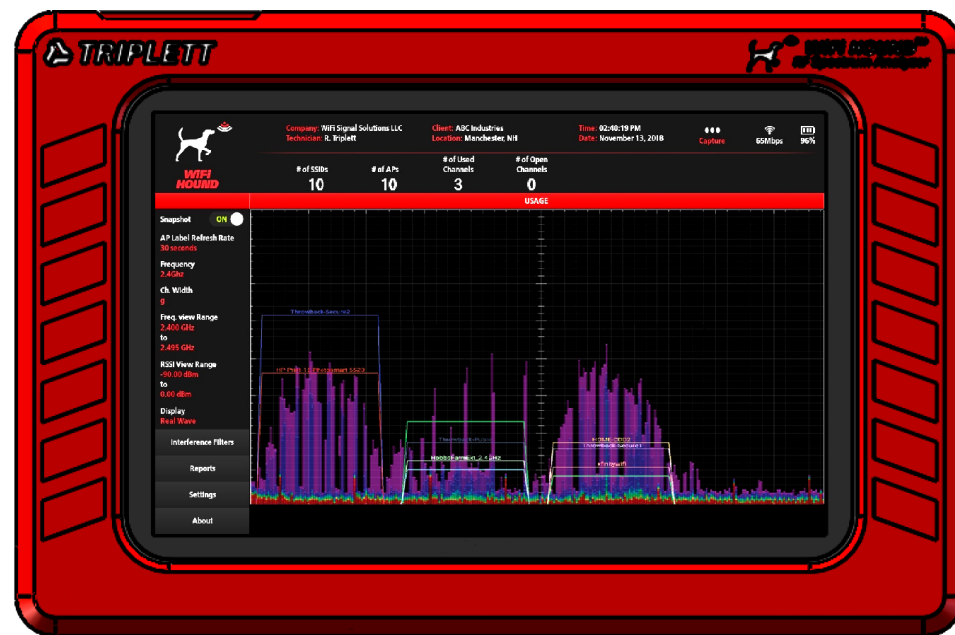

FCC ID: 2ARKJTRI-3798
MODEL: WFHOUND

WIFI HOUND™

QS-TRI-WFHOUND, REV A

The WiFi-Hound™ is a tablet PC that uses specialized software and on-board RF antenna module to help you troubleshoot communication issues and identify potential sources of interference for both 2.4GHz and 5GHz WiFi networks. Our customized software makes it simple to generate reports and demonstrate problems and solutions to clients.
